Tanmay Rathod

B.Tech- Computer Science & Engineering

Ph: +91-9755292951

Email: rathodsonu107@gmail.com

Indore, Madhya Pradesh, India - 453111

BRIEF SUMMARY

I am a dedicated and detail-oriented student aspiring to build a career in Machine Learning and Data Science. I possess strong skills in Python, data manipulation, and statistical analysis, with hands-on experience in handling datasets, feature exploration, and basic model understanding. I am eager to learn advanced machine learning techniques and contribute to impactful, data-driven projects.

KEY EXPERTISE

C++ , Python, SQL

Data Science,Machine learning,MERN stack develpoment,numpy,pandas,flutter,Problem Solving

Education Detail

Shri Vaishnav Vidyapeeth Vishwavidyalaya (Indore)
Bachelor of Technology (B.Tech), Computer Science & Engineering
CGPA: 8.84 / 10 | *2023 – 2027*

Saraswati Sisu Vidhya Mandir ,Khachrod (MP Board)
Class XII (Senior Secondary) – *2023*
Percentage: 86%

Saraswati Sisu Vidhya Mandir ,Khachrod (MP Board)
Class X (Secondary) – *2021*
Percentage: 72%

Projects

Talent IQ - Real-Time Collaborative Coding & Interview Platform **01/01/26 - 15/01/26**

Key Skills: React, Node.js, Express, MongoDB, Clerk Auth, Stream Video & Chat SDK, React Query, Vite, Tailwind/DaisyUI
Built a full-stack real-time collaborative coding and interview platform that enables two users to join a live coding session with video call, shared code editor, chat, and instant code execution.
The platform is designed to simulate real technical interviews and pair-programming environments with seamless user experience and secure authentication.
Key Features:
One-to-one live coding sessions
Real-time video calling using Stream Video SDK
In-session real-time chat
Built-in coding problems with difficulty levels
Multi-language code execution (JavaScript, Python, Java) via Piston API
Live code editor with Monaco Editor
Secure authentication with Clerk
Dashboard with active & past session tracking
Fully deployed (Frontend on Vercel, Backend on Render)
Live Demo:
https://lnkd.in/gUtSiSJa
Github Link : https://github.com/tanmayrathod765/TALENT-IQ.git

Lost & Found AI – Campus Item Recovery Platform **04/12/25 - 10/12/25**

Key Skills: A full-stack web application designed to help users report, discover, and claim lost or found items efficiently. The platform provides a social-feed-style interface where users can browse lost and found items, submit claims, and communicate securely.
Authentication & Security
– Google Authentication & Email/Password Login (Firebase Auth)

– Role-based access (User / Admin)
– Protected routes for secure navigation

Core Features
– Report Lost & Found items with images, location, date, and contact details
– Instagram-style item feed for Lost & Found items
– Claim system with approve/reject workflow
– Automatic removal of resolved items
– User claim history tracking

Media & Storage
– Image upload with size validation (max 5MB)
– Cloudinary integration for fast & optimized image storage

Smart Search
– Global search across lost & found items
– Matches keywords from title, category, description, location, and phone

AI Enhancement (In Progress)
– Image embedding & similarity matching for smart item recovery

Tech Stack
– Frontend: React, Vite, CSS
– Backend: Firebase (Auth, Firestore)
– Media Storage: Cloudinary
– AI: OpenAI Embeddings (optional / rate-limited)

Aether – a buddy **12/11/25 - 20/11/25**

App Name: Aether
Built With: Flutter (Material 3 + Glassmorphism)
Optimized For: Android

Key Features

DSA Manager: Store, view, and organize all your coding programs.
Program To-Do: Track which problems you plan to solve.
Task Manager: Add deadlines, reminders, and “Remind Me” notifications for daily tasks.
Secure Vault: Save photos, documents, and videos privately inside the app.
Persistent Local Storage: Your data stays even after app restarts.

I focused on vibrant gradients, smooth transitions, and a modern glass UI to make the experience both functional and aesthetic.

Tools & Packages used:
flutter_local_notifications, path_provider, file_picker, provider, flutter_launcher_icons, flutter_native_splash

Lonify - A loan approval system
Credit-Wise---Loan-System
Mentor - Apna collage
key-Features Data science, python, AI
• Built a machine learning model to predict loan approval using applicant financial and demographic data.
• Performed data preprocessing, missing value handling, and feature encoding (Label & One-Hot Encoding).
• Conducted exploratory data analysis (EDA) to identify key patterns affecting loan approval.
• Trained and evaluated Logistic Regression, KNN, and Naive Bayes models.
• Improved model performance through feature engineering and feature scaling.
• Evaluated models using accuracy, precision, recall, F1-score, and confusion matrix

SmartCart – Data-Driven Shopping Analysis System

Key Features

- Data cleaning and preprocessing of shopping/cart datasets
- Efficient handling of CSV files using Pandas
- Feature-wise analysis to understand customer purchase patterns
- Statistical analysis to extract meaningful insights
- Organized and structured data representation
- Python-based implementation using Jupyter Notebook

Project Description :

SmartCart is a data-driven project designed to analyze shopping cart data and extract meaningful insights from customer purchase behavior. The project focuses on cleaning, preprocessing, and analyzing structured datasets using Python and Pandas. Various data analysis techniques are applied to identify patterns, trends, and relationships within the data.

The system efficiently handles CSV files, performs statistical analysis, and presents insights that can help in understanding customer preferences and improving decision-making. This project demonstrates practical skills in data manipulation, exploratory data analysis (EDA), and real-world application of data science fundamentals.

Assesment and certification

- **C++ Programming Certification**
  Demonstrated strong understanding of core C++ concepts including object-oriented programming, control structures, and problem-solving techniques.

- **AI Fundamentals Certification – Oracle**
  Gained foundational knowledge of Artificial Intelligence concepts, including AI applications, basic machine learning ideas, and real-world use cases.

- **Machine Learning (AI/ML) Certification**
  Completed institutional training in Machine Learning covering data analysis, basic ML algorithms, and practical exposure to AI/ML concepts.

PERSONAL INTERESTS / HOBBIES

- 1. Singing

  2 . Reading

PERSONAL DETAILS

- Gender: Male
- Date of Birth: 08 September 2005
- Languages Known: English, Hindi
- Contact Number: +91 97552929251
- Strengths: Adaptable, Quick Learner, Effective Team Player, Strong Communication Skills
- Current Address: Indore, Madhya Pradesh – 453555, India

Declaration

I hereby declare that the information provided above is true and correct to the best of my knowledge and belief. I bear the responsibility for the correctness of the above-mentioned particulars.

Date: 19th february 2026 **Signature**
